deepandpure.com

We are a textile company, with a long history starting in 1978. Our company has its headquarters in Denizli, which is one of the textile centers of Turkey.

Deep & PureTextile, with yarn spinning, weaving, dyeing/finishing, sewing and embroidery units, is an integrated establishment producing towels, bathrobes, and cotton woven fabrics.

The famous Turkish Cotton is processed at Deep & Pure company. The natural softness of cotton is reflected onto yarns and fabrics, and eventually to towels and bathrobes. Ready-made product is exported to many countries. The secret, of our success is the participation of the workforce into production, with devotion, consciousness and passion.

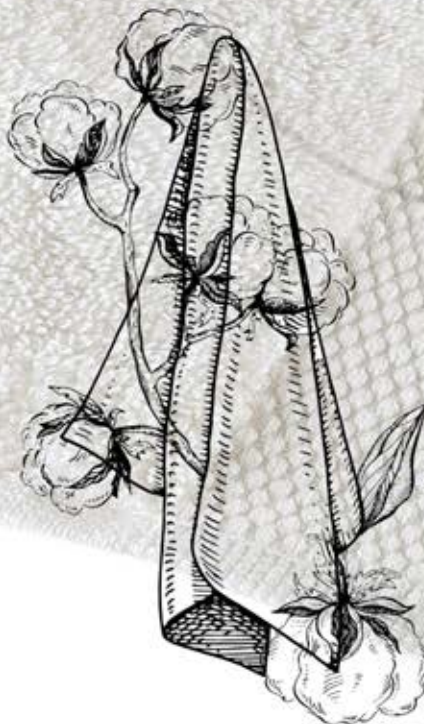

The main factor behind Deep & Pure textile being recognized as a reliable production partner in the global markets is the principles adopted for the quality of production and services and timely deliveries.

Vision

To supply / produce first quality products to the world by using innovative management and control systems that are internationally valid.

Mission

Creating customer satisfaction, mutual trust and high quality products, meeting the expectations at the highest level and on time is our main principal.

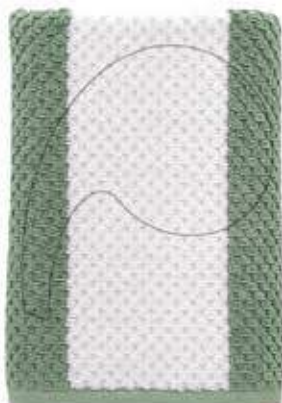

Bath
